

CONSERVATION DAY CAMP

When fun comes first, learning comes naturally! Our Conservation Camp program offers children a fun, active and outdoor summer experience at our very own Conservation Areas. There are two great locations; Quinte Conservation Area at 2061 Old Highway 2, near Belleville and Macaulay Mountain Conservation Area, 224 County Road 8, near Picton.

Children 7 to 13 can join in summer fun, exploring and discovering the wonders of the great outdoors.

You can register for camp online at our website, quinteconservation.ca. You must have a valid Visa or MasterCard credit card to register online. If you do not have a credit card, please visit our office.

GO CAMPING AT DEPOT LAKES

EXPERIENCE SUMMER AND EXPLORE NATURE

Depot Lakes Conservation Area and Campground is nestled in the heart of the Land o' Lakes tourist region, just north of the village of Verona. This Conservation Area is 1,214 hectares (3,000 acres) in size. Second, Third and Fourth Depot Lakes make up this Conservation Area, and offer some of the best fishing in eastern Ontario. This is our only Conservation Area that offers camping.

There are 20 interior sites, thoughtfully sprinkled along the shoreline as well as on a few of the tiny islands of Second Depot Lake. Access to these is by canoe, and a few can be backpacked in from the hiking trails. All campsites have picnic tables, fire pits and outdoor privies.

Camping costs \$11.00 plus HST per night per adult (with a two night minimum). Children 15 and under are free.

Day use activities include hiking and paddling. There are approximately 9 km of hiking trails through the Canadian Shield at Depot Lakes.

DAM IMPROVEMENTS

Quinte Conservation is undertaking more safety related projects at our Napanee Region dams. Gantries (log lifting devices) will be installed this summer. This will result in improved worker safety and increased ability to remove logs during high flows.

LITTLE BLUFF CONSERVATION AREA

Steeped in history and rich in natural features, this Conservation Area, located atop a 20 metre high limestone bluff, commands a panoramic view of Prince Edward Bay and the rugged shoreline of this southern reach of the county. Take the pathway to the cobblestone beach below and view the high bluff from a different perspective. There are 1.5 km of trails at this 28 hectare (70 acre) site. This quiet shoreline is actually a barrier beach, effectively protecting a small wetland from the windswept waters of Prince Edward Bay. Here, Canada geese, mallards, great blue herons, bitterns and Virginia rails find the protected habitat they require.

To get here - From Picton, take County Road 10 (Lake Street) south to County Road 13. Turn right and follow County Road 13.

BECOME A FRIEND OF QUINTE CONSERVATION

Become a Friend of Quinte Conservation and help preserve and protect natural heritage lands in your watersheds.

- Your \$25 annual membership includes:
- one year subscription to Ripple Effects, Quinte Conservation's quarterly newsletter
 - your dues support improvements to local Conservation Areas
 - tax receipt

Having a healthy environment is important to your own life. Healthy forests, lakes and water help to clean your air and make sure that you have enough clean water for all your uses.

As well, you can keep fit by getting outside and participating in some of the great activities available in

your local Conservation Areas. Whether you stroll or are more active, there are a wide range of activities such as hiking, swimming, canoeing, biking, bird watching, and skiing.

To become a Friend of Quinte Conservation visit our website at www.quinteconservation.ca, call our office at 613-968-3434 or email us at quinteca@quinteconservation.ca.
