Addendum #1

This addendum has been issued prior to the closing date to provide revisions, clarification or supplemental terms or conditions. All revisions, clarifications or supplemental terms or conditions forms part of the bid and contract documents, and amends the original bid documents.

The effects of this addendum shall be included in the bid price.

All submitted proposals are required to acknowledge in a prominent location that ALL addendums have been fully accounted for.

Question #1:

The scope states that the elevation profile of the flood control berm along the downstream reach of Marsh Creek shall be surveyed. Please confirm the location and extents of the flood control berm and in relation to the study area.

Answer #1:

The flood control berm is on the west side of Marsh Creek between York St and Bridge St. Please refer to the attached Figure 1 – Required Floodplain Mapping Reaches, Marsh/Macaulay Creeks.

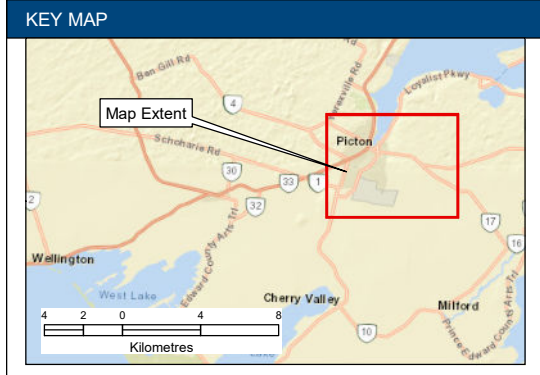

Question #2:

Please confirm the extents of the study area. The area shown on the figure does not extend downstream of York Street while the RFP references to the lower portion of the creek flowing through residential areas prone to flooding.

Answer #2: Please refer to the attached Figure 1 – Required Floodplain Mapping Reaches, Marsh/Macaulay Creeks.

Approximate location of existing flood control berm
